## MURPHY SEED CO.

745 WALL STREET  
LOS ANGELES

Orchid Rose

**YELLOW WONDER - Column Stock**

Due to California weather conditions last spring and lack of imports because of world conditions, seed supplies are very short this year. We suggest, therefore, that you order early while our stocks are complete.

# **Your Business AND Our Business**

YOUR reputation as a grower of superior flowers and plants is maintained and furthered when you restrict your seed source to one maintaining an equally high reputation for seed production. In no line of endeavor is quality more essential to success or ultimately more economical than in the choice of seeds. It is the foundation of profitable production of salable stock.

Murphy Seed Company insists upon furnishing only seed of the highest quality procurable. We closely watch the growing developments of the foremost commercial growers on the Pacific Coast. We sell seeds to many growers who supply the critical Los Angeles market, nationally known for quality standards. Our first-hand knowledge of seed and flower production, our painstaking selection and reselection of seed from the most superior strains, is an integral and priceless part of every order we fill.

A. and Canada, and subject to change without notice.

If you wish your order sent by air mail, please add 8c per ounce for packing and postage.

## **FLOWERS OF SPECIAL MERIT**

IT HAS been Murphy's policy before listing new flowers to plant them in our trial grounds first, checking to see for ourselves if they are worth while and true to originators descriptions, before introducing them to our customers, your protection against many disappointments and complaints. The following list is taken from the pages of our catalog, they are, we feel, tested true varieties. The first three varieties were originated in Murphy's own test grounds.

Because Zinnias are a very important item for you, much work has been done on them, especially on the California Giants, Dahlia-flowered and Pompon types, to true them as to doubles, color and type. We are pleased to give you these much better and truer types for your critical clientele.

**ZINNIAS** Giant Dahlia Flowered

- Plants are of medium height. The flower is built up to resemble a show type of dahlia, hence its name. Our seed is all from re-selected stock, very true to color and high percentage of doubles.
- CANARY BIRD—Yellow.
  - CRIMSON MONARCH—Deep crimson.
  - DREAM—Deep lavender.
  - EXQUISITE—Light rose, deep rose center.
  - GOLDEN DAWN—Golden yellow.

- PURPLE PRINCE—Rich purple.
  - GOLDEN STATE—Orange yellow.
  - ROYAL PURPLE—New rich purple.
  - ILLUMINATION—Deep rose self.
  - ORIOLE—Orange and gold.

Ranunculus

# RANUNCULUS BULBS

## Murphy's California Giants

Developed from top-quality strains, with a view toward supplying the commercial grower the best for successful growth and profitable sales.

MURPHY'S CALIFORNIA GIANTS include a very high percentage of doubles and semi-doubles. Mixed colors come from selected seeds of best strains and include an unusually beautiful range of colors.

Separate colors are White shades, Golden Yellow, Pink shades, Red shades and Orange shades.

## CULTURE

Ranunculus are very easily grown. Soak the bulbs in water for a few hours before planting and cover with one inch of soil. In very heavy soils cover with pure sand. The bulbs have finger-like projections and these should be planted down.

For a good garden display space them from 4 to 6 inches apart. Do not use fresh fertilizers, the soil should be enriched some time before the roots are set out, a good application of commercial fertilizer is profitable. A liberal supply of water with good drainage is essential.

All Bulbs F. O. B. Los Angeles.

MURPHY SEED CO.

H. H. H. H. H.

Scene taken on Murphy Seed Co. Ranch at Downey, California. Mr. G. Edwin Murphy (right) and Harold Norman, Ranch Superintendent, inspecting crops.

Due to the many seed shortages arising from the lack of imports of many varieties of flowers never before grown at a profit in America, Murphy Seed Co. located their seed ranch at Downey in order to grow many of these flowers for our customers: Begonias, Phlox, Column Stocks, etc.

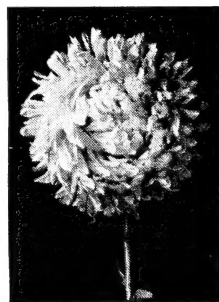

Murphy's Trial and Test Grounds are also located here. Practically every variety in our catalog is tested for germination, purity, and lines sought along improvement. All new flowers originated by ourselves and other growers are planted in order to observe closely the improvement and value before passing on to our customers. All our customers are cordially invited, when visiting Southern California, to inspect our Trial and Growing Grounds.

Aster Florist New Upright Single Rainbow Mixed (Wilt Resistant)

**ASTER FLORIST NEW UPRIGHT SINGLE RAINBOW MIXED (Wilt Resistant).**

This new habit in Rainbow Asters perfected for the Los Angeles market and shippers has really reached its height of perfection. Instead of regular branching habit this variety grows perpendicular, providing a fast cutting and bunching aster. Flowers grow very even at the top. Single and often semi-double blooms appear. The mixture contains all the bright, popular aster colors and this year we offer this to our trade as a flower worthy of your attention. **Tr. Pkt., 25c; ¼-oz., 45c; 1-oz., \$1.35; 1b., \$16.00.**

**REMEMBER**

**MURPHY'S BETTER COLUMN NON-BRANCHING STOCKS** give you these outstanding features:

**LARGE FLOWERS**—Full double florets measuring 2 to 2½ inches in diameter, nicely arranged on long flower spikes.

**SPLENDID COLORS**—Good rich bright colors, excellent for use alone and in combinations.

**LONG STEMS**—20 to 40 inch stems give you the best quality for your customers.

**DOUBLES**—High percentage of doubles makes these stocks a very profitable crop for you.
